Why You Need to be Global TESOL Certified

The English teaching industry has evolved significantly over the past decade, and foreign language schools are becoming more selective when hiring new teachers. The number of qualified and experienced teachers has increased as well, making a Global TESOL Certification your most valuable asset.

With a Global TESOL College Certificate (or Diploma) You Will Be Able To:

- Enter the TESOL job market with recognized credentials
- Earn a significantly higher salary \$\$\$
- Receive more benefits and perks
- Work fewer hours per week for better pay
- Access lucrative tutoring opportunities
- Open doors to work in countries not accessible to tourists
- Gain confidence in your ability to teach

Do I Need TESOL Certification... Do I Need A Degree?

It is difficult to find a good job with a reputable employer without a TESOL Certificate, even if you have a degree. And teachers who have Global TESOL College Certification are eligible for many more employment opportunities and considerably higher wages.

No wonder uncertified teachers who have taught abroad in the past become TESOL Certified before they go abroad again – so they can get a job in today's competitive market.

Academics and employers agree that a university degree alone will not prepare you to teach English as a second language. Most university ESL courses are theory based and locally focused. TESOL offers more...

TESOL teachers require special skills and knowledge to teach communication in a foreign land. Therefore, reputable employers require that the teachers they hire are TESOL Certified.

For most countries, a TESOL Certificate is the major requirement. In addition to a TESOL Certificate, a degree in any discipline may be necessary to teach legally in some countries.

An Education degree or Masters degree, plus a TESOL Certificate may be required for higher paying positions.

Even though I have been teaching in Korea for 5 years I still learned so much from this course. My supervisor was shocked at my improved classroom creativity and lesson planning ability. I was told that I was a darn fine teacher but I knew I lacked the creativity and resources to be a GREAT TEACHER. This course solved these problems. As the Head Teacher I am responsible for training all new teachers, and I am much more confident in the advice I give. I kick myself for not taking this course sooner! This course was well worth the money! If you are thinking about taking this course, stop thinking! Take it! You will not regret it!"

*Carol D., Edmonton, Canada 2001
(presently lives in Tokyo, Japan.)*

"As an independent personal teacher/instructor of various subjects, I found the TESOL course enlightening in respect to methods. Not one week after

the course, I used similar methods in personal instructing, and it was a complete success! The course was fun and interesting, the teacher was intuitive and exact, and I look forward to teaching a whole classroom of students with my certification and newfound methods under my belt."

Liz Pringi, Canada 2004

"I am a graduate of Global TESOL College from Toronto in 2004 and after one year of teaching in Indonesia, three months in Moscow and now back to

Where Do You Want To Go?

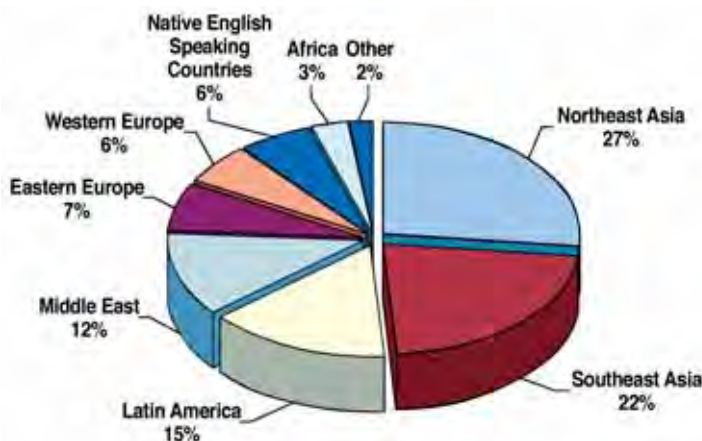

The range of locations and teaching situations available covers a very broad spectrum. As a TESOL Certified teacher, you will have employment opportunities available to you in most countries around the world. There only a handful of nations where English is not being widely studied (such as North Korea & Bhutan).

Destination Quick Facts:

- The job market is booming in more new countries each year (such as Kazakhstan & Myanmar).
- The job market continues to grow in established TESOL markets (such as South Korea & China).

Global TESOL graduates are working in incredible jobs in countries around the world... from popular destinations such as Japan and Taiwan, to the not so common countries like Nepal and Namibia.

Where You Can Teach English

Why Are There So Many Jobs?

Millions more each year are learning English so that they can communicate in the global economy. There are more than 100,000 TESOL jobs available worldwide. This is a very conservative estimate considering the large number of teachers required at present for countries such as China and South Korea.

Demand Quick Facts:

- Half a billion people are presently studying English around the world.
- 90% percent of the worlds' electronically stored data is in English.
- 80% of the websites on the internet are in English.

Let Us Help You Find Your Dream Destination

ASIA is a fascinating place where ancient traditions and modern advances combine to create a stunning cultural experience for all those fortunate enough to spend time living there. English teaching jobs in most Asian countries are abundant and lucrative. Approximately 50% of the English teaching jobs available worldwide are found in Asia. Jobs usually include airfare and accommodation. High-paying private tutoring opportunities are common. Asia is a great place to save money... Popular destinations include Japan, Korea, China, Taiwan and Thailand just to name a few. You will love it!

Asian Highlights: In China walk the Great Wall and swim the exotic beaches of Sanya; visit the temples and ruins of Angkor Wat in Cambodia; trek overland to Tibet; sample delicious foods and visit a Buddhist monastery in Korea; explore the jungles and elephant trek in Thailand; shop in Hong Kong... the wonders of the far east cultures are endless!

LATIN AMERICA offers exciting opportunities for the adventurous and the sun loving. Central America, South America and Mexico have attractive teaching positions available throughout the year. Helpful Employment Facts For Job Selection

How Global TESOL Will Help You

As the industry's experts, Global TESOL College's years of knowledge and experience will prove to be extremely valuable for you. Our "Job Placement Specialists" will assist you in selecting the best job, and provide you with very important information on how to wisely negotiate the terms of your contract.

Whether you are planning a short or long term trip abroad to teach English, there are many important factors to consider when selecting a teaching position.

Your Contract

- Contract terms range from a few weeks up to one or two years.
- Many job contracts provide paid airfare and accommodation, and include attractive packages.
- The overall package you are offered depends on the contract details, your credentials and experience, and how quickly the position needs to be filled.
- Each job offers unique benefits and may include such things as free language lessons, paid holidays, housemaids, weekend excursions and meals.
- You can expect salaries and contract terms to vary greatly from country to country, and from school to school. Foreign English teachers may be paid the equivalent salary of a local teacher, or as much as ten times the salary of a local teacher.
- An average work week is 20-25 hours, leaving you ample time to explore and immerse yourself in a new culture.
- Many teachers tutor privately and make a lot more money in a short period of time, often earning double their monthly salary.

Typical TESOL contracts include these categories:

- Contract duration • Start & end date
- Teaching hours/week
- Accommodation arrangements
- Airfare • Other perks
- Monthly salary & bonus pay
- Currency & method of payment
- Medical coverage
- Paid holidays & sick days
- Contract completion pay (often 1 month's salary)

Here's A Typical Job Offer

One Year Contract in South Korea

- Free Airfare & Accommodation
- \$2,200 US Monthly Salary
- Teach 25 hrs per week
- Free Medical Insurance
- 22 Paid Days Off
- End of Contract Bonus: \$2,200 US

How Much Can You Earn & Save?

This depends on where you work, the level of your TESOL credentials, your spending habits and on the cost of living.

Typically our graduates earn an average of \$2000 US per month in many countries and can save anywhere from 25% to 75% of their wages if living within their means. Many teachers save \$20,000 US or more each year.

As a general guideline, the wealthier the nation, the more you can make, but the cost of living is usually higher.

How Can I Earn Even More Money?

Many graduates double (or more) their income by working outside of the normal 20-25 hour work week as private tutors or by teaching in specialized fields.
